

## CALL FOR TUTORIALS

The Organizing Committee of the 22<sup>nd</sup> International Conference on Information Fusion is inviting the submission of proposals for tutorials to be presented on 2 July 2019. The main purpose of the tutorial programme is to provide overviews of the state of the art in the particular subfields of Information Fusion.

Proposals for tutorials may cover the areas listed in the general Call for Papers (Theory and Representation, Algorithms, Modeling simulation and evaluation and Applications), as well as other areas where Information Fusion can or should be applicable. Examples include, but are not limited to fusion of human-produced and unstructured information, Big Data analytics, Information Fusion in Cloud computing, and Information Fusion applied to Cybersecurity.

## TUTORIAL PROPOSAL REQUIREMENTS

Proposals should be a pdf document in a format which can be posted on the website after acceptance.

A proposal needs to contain:

- The title of the proposed tutorial
- Length of the tutorial: Half-day or full-day
- The intended audience and prerequisites for the attendees' background knowledge
- A description of the tutorial, including the learning objectives and a short summary of the material to be presented
- Biographical sketch(es) of the instructor(s) including previous lecture and tutorial experience

The honorarium for tutorial speakers is made up of a basic amount plus a variable bonus. However, we will not offer any printing services and are not responsible for study materials distributed to the attendees. The bonus is directly taken from the tutorial fees and thus proportional to the number of attendees.

## SUBMISSION LINK and IMPORTANT DEADLINES

Submit: <https://edas.info/newPaper.php?c=25788> (all submissions are through the EDAS web site).

Tutorial proposal submission

25 Feb 2019

Notification of acceptance

1 May 2019

For more information please visit the conference website: [www.fusion2019.org](http://www.fusion2019.org)
